

# modern recovery management

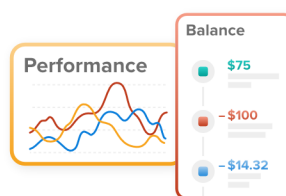

**Convoke: the modern recovery management SaaS platform** for organizations that use third parties to collect debt.

Securely ingest, exchange, and manage all collection information. Consolidate disparate systems to gain unparalleled insights into your data, ensure compliance, and boost performance.

## Inventory Management

Get instant visibility into your account inventory with collection agencies. Allocate accounts automatically using flexible, logic-based decisioning — complete with validation and reconciliation controls.

## Performance Management

Integrate Convoke with your third-party systems of record to track all costs and balances, compare vendors, and identify your top-performing and most efficient partners.

## Business Intelligence

Unlock deeper insights and improve decision-making with customized reporting and intuitive dashboards. Get an instant overview of third-party productivity, or drill down to the account level for granular detail.

ROI

**2–5 %**  
IMPROVEMENT  
IN RECOVERY

Scale

**63 M**  
ACCOUNTS

**9 B**  
CRM DATA  
RECORDS

**900 M**  
DOCUMENTS

**361**  
THIRD PARTIES

## The industry choice since 2010

Trusted by the nation's leading credit issuer, utility companies and telecom firms, with 9 billion data records and counting, Convoke is market-proven, Convoke is market-proven, robust, and fully scalable.
