

Freeform is a collaboration platform that enables credit issuers to easily and securely share documents with third parties.

Store your collection-related files within Convoke's secure, independently-audited architecture and collaborate with agencies, law firms, and debt buyers.

Grant access permissions, perform audit tasks, share findings, and confirm sign-off, all within one centrally-managed platform.

SIMPLE

- ◆ Incredibly easy to use – no training needed
- ◆ Keeps everything organized, in a single place
- ◆ Endlessly flexible – supports hundreds of use cases

SECURE

- ◆ Built to the highest security standards
- ◆ All data encrypted, no public cloud
- ◆ Full support for hardware MFA and SSO

TRANSPARENT

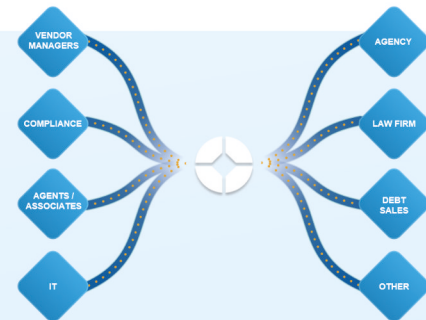

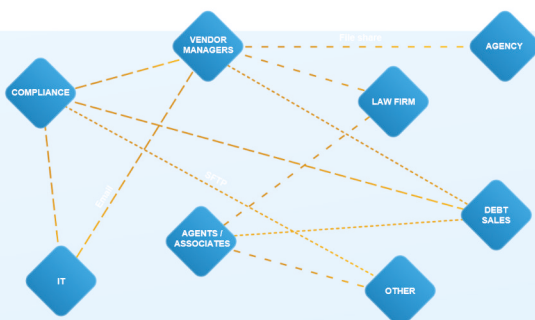

- ◆ Fully auditable, unlike other commercial solutions
- ◆ Open-book visibility into platform and architecture
- ◆ Built within Convoke's private infrastructure
